- 11.8 If an organizer lowers the prize fund, allocated for individual athletes in the international part of the tournament, after a tour composition has been published, the following will be in effect.

-
- a. The EBT Fee will stay as it is, even if the category of the tournament changes to a lower status as a consequence of the lowered prize pool.

- 13.5 It is recommendable to consider free refreshments for guests and other similar conditions, as long as sponsorship and resources to provide such facilities are available.

- 14.2 If the registration for the tournament has opened, article 8.6.5 of the ETBF Constitution, concerning cancellations and compensations, will apply.

15 Tournament dates

- 15.1 The period of an EBT Tournament must not be scheduled in a way, which makes it impossible for athletes, taking part in the World Championships, the World Women Championships, the World Men Championships, the European Women Championships or the European Men Championships, to enter qualification squads in the tournament at the latest on the second last day of the qualification and additionally being able to bowl the rest of the tournament.
- 15.2 The ETBF Presidium might, in special occasions, allow organizers of EBT Satellite Tournaments to disregard from Article 15.1, if it is beneficial both for the tournament and the EBT.
- 15.3 Any change in the duration or period of an EBT Tournament must be approved by the EBT Director.
- 15.4 If the period of a tournament is changed, other than adding days to the beginning of the tournament, and if the registration for the tournament has opened,

article 8.6.5 of the ETBF Constitution, concerning changes in tournament periods and compensations, will apply.

16 Women handicap

- 16.1 In case of a mixed women and men division, women will be awarded 8 pins per game handicap in all whole games played in the tournament.
- 16.2 A handicap is counted as a pin fall.
- 16.3 No handicap will be awarded in roll-off shots and roll-off frames.
- 16.4 When a handicap of 8 pins is added to a scratch game score, the maximum scratch score of the game is 292; i.e. a game score higher than 292 will be reduced to 292.

17 Booking policy

- 17.1 The total number of possible bookings per athlete in a tournament is in principle unlimited.
- 17.2 In the period before the tournament, each athlete is allowed to pre-order a maximum of three bookings, one primary entry and two re-entries. Maximum two of the pre-ordered bookings can be placed on the last two qualification days in the tournament.
- 17.3 Each organizer is entitled to specify a maximum number of bookings, an athlete can make during a tournament; regardless what the bookings are for: squad lists, waiting lists or priority lists.
- 17.4 Before as well as during the tournament, athletes are signed up for squads by using the first-come-first-served method.
- 17.5 An athlete can always, without consequences, cancel a re-entry during a tournament.
- 17.6 It is the obligation of the organizer to publish a deadline, which can be maximum 30 minutes before a scheduled squad time, before which any athlete booked for the squad must register and pay the entry fee. If an athlete fails to meet this requirement, the athlete's booking may be removed.
- 17.7 For tournaments with various sizes of team events added to their singles event(s), it is possible to open for entries where an athlete is listed in more than 3 teams, as long as the athlete him/her selves does not pre-order more than 3 squads. This extended entry possibility must, if introduced by the organizer, not begin before at the earliest the first day of the penalty period (see. 28.2a).
- 17.8 In general, all bookings must have the name of the individual athletes specified. However, if the organizer has the full confidence that all booked squads will be

used, then bookings (often in groups) from a federation, club or individual may be permitted. In such cases it is recommended that a deadline be specified for submitting the names of the athletes. Such deadline should be set to minimum of one month prior to the first day of the tournament.

- 17.9 An athlete cannot, regardless the moment of cancellation, cancel a booking on behalf of another athlete, i.e. an athlete must cancel any booking in person.
- 17.10 An athlete cannot forward pre-ordered bookings to another athlete, since an athlete not coming is an athlete cancelling. Any athlete, not previously booked for squads in a tournament, must be considered as a new athlete and will be positioned as the last signed up athlete in booked squads. The only exception from this rule is in cases, where an organizer has accepted a group booking from a national team and the national team exchanges an athlete.

18 Qualification squads

- 18.1 A limited number of qualification squads might be open only for a dedicated group of athletes, such as youth athletes or senior athletes, but in general qualification squads are open to all eligible athletes, who want to participate in the tournament.
- 18.2 The number of games in qualification squads is minimum 6.
- 18.3 The playing time in 6 games qualification squads must be scheduled as follows:
- 2,0 hours for 2 athletes per pair of lanes
 - 2,5 hours for 3 athletes per pair of lanes
 - 3,0 hours for 4 athletes per pair of lanes
 - 4,0 hours for 5 athletes per pair of lanes (not in qualification squads)
 - 4,5 hours for 6 athletes per pair of lanes (not in qualification squads)
- 18.4 The lanes must be stripped and re-dressed before each qualification squad.
- 18.5 The dressing time for qualification squads will normally be scheduled as one hour, but in certain situations, such as a limited number of lanes available or more than one dressing machine available, a different time for dressing might be permitted.
- 18.6 Irrespectively of the number of athletes per pair of lanes in a qualification or a desperado squad, the practice time is 10 minutes.
- 18.7 For all stages of the tournament, referees must be available, at least one for each 8 lanes. The referees must be positioned in such a way, that they have a good overview of the lanes and are clearly visible to the athletes.
- 18.8 For all stages of the tournament, only athletes, tournament officials and the staff may be present in the athlete's area, which means that no coaching in the athlete's area may take place.

-
- 18.9 It is the obligation of the organizer, if not physically obvious, to ensure that the athlete's area is properly marked out.
- 18.10 During the final steps of the tournament open bowling is not permitted in the centre. It is also strongly recommended not to have open bowling during the qualification squads. Open bowling and/or other normal daily activities in the centre are permitted outside the periods of qualification squads and final steps.

19 Final stages

- 19.1 The number of athletes and the number of games to be played in each final stage are defined by the organizer, but the number of athletes to qualify can never be less than 32.
- 19.2 The practice time prior to any final stage, except matches in a stepladder final, is 10 minutes.
- 19.3 The practice time in stepladder finals will be as follows:
- All athletes in the final can practise 10 minutes at the lane pair in use
 - Athletes, who will play in later matches, can continue their practise on another lane pair, dedicated by the Tournament Management
 - Before the second and following matches in a stepladder, the athlete entering the final pair from other practice lanes is allowed two practice shots at each lane. The athlete, who just won the previous match, will not get any practice shots before the next match
- 19.4 The lanes must be stripped and re-dressed a reasonable number of times in between stages in the final, basically depending on the number of games played on each lane in a stage and the format.

20 Lane assignments

- 20.1 In due time before a squad or a final stage, the athletes must be assigned to their starting lane by a manual or computerized draw witnessed by a neutral person or notary public.
- 20.2 Athletes per pair of lanes in qualification squads
- The maximum number of athletes per pair of lanes is 4
 - There might be 3 or 4 athletes per pair of lanes in a squad
 - There might be 2 or 3 athletes per pair of lanes in a squad
 - The minimum number of athletes per pair of lanes is 2
- 20.3 Pacers
- If there is an odd number of athletes in a squad with only 2 athletes per pair of lanes, it is mandatory to use one pacer
 - In squads with more than two athletes on some of the pairs, it is optional for the organizer to use pacers

-
- 20.4 In cases where it is necessary, because of requirements of the number of athlete per pair of lanes set forth in 20.2, an athlete might be moved from one lane pair to another after the draw is made.
 - 20.5 When an athlete is signed up for a squad after the draw has been made, the athlete will be assigned to a lane as decided by the tournament management.
 - 20.6 It is not possible to conduct squads with less than 5 athletes plus a pacer

21 Lane movements

- 21.1 With the exception of head to head matches, athletes have to change lanes after each game.
- 21.2 If the score system provides the possibility, then athletes positioned at the left lanes move left and athletes positioned at the right lane move right.
- 21.3 The athletes should be moved over as big a part of the centre as possible by skipping pairs (one or more) in the movement.
- 21.4 Athletes, who have already played on a pair of lanes, can in principle not return to the same pair of lanes in the same squad, with the exception as specified in 21.5.
- 21.5 A squad or final stage must be kept within a specific part of the centre. In squads, where the number of lane pairs in use is lower than the number of games to be played, the athletes can return to the same pair of lanes later in the squad, but only once.

22 Tie rules

- 22.1 When a tie occurs in qualification competitions, either including all squads, a defined number of squads or just one squad, the highest positioned athlete will be the athlete scoring the highest last game. If a tie still exists, the highest positioned athlete will be the athlete with the highest second last game etc.
- 22.2 When a tie occur in a build in competition in the qualification (a Turbo competition for instance), the highest ranked athlete will be the athlete with the highest position in the qualification.
- 22.3 When a tie occur in a separate competition held after the main qualification, and before the first final step (a Desperado competition for instance), and the tie is influencing who will qualify for the first final step, the tie will be broken by playing a 9th and 10th frame roll off, repeated until the tie is broken.
- 22.4 Ties in final stages, not including head-to-head matches

-
- b. A tie influencing the final top 3 of the tournament, or a tie influencing who will qualify for the next final step, will be broken by playing a 9th and 10th frame roll off, repeated until the tie is broken.
- 22.5 Ties in final stages including head-to-head matches, might it be one game ties in matches where each game counts for a standing, might it be matches over one game or matches where a total of two or more games are decisive, a one ball roll off on a full set of pins will be played, repeated until the tie is broken.
- 22.6 Procedures for 9th and 10th frame roll offs
- The athletes will be positioned at a pair of lanes, as decided by the Tournament Management.
 - Each athlete will get two practise shots at each lane.
 - The highest ranked athlete after the qualification chooses on which lane he want to begin, the second highest ranked athlete after the qualification will then be positioned at the other lane, while the third highest ranked athlete after the qualification will be positioned at the first chosen lane etc.

- 22.7 Procedures for one ball roll offs
- There will be no practise shots before the roll off shots.
 - When a game is played on a pair of lanes, the athletes will, for the first roll off delivery, be positioned on the lanes where they ended the game. The highest ranked athlete after the qualification will choose the order of play. For a second roll off delivery the athletes will switch lanes and the order of deliveries will be opposite to the first one etc.
 - When a game is played on one lane, all roll of shots will be delivered on the lane, where the tied game was played. The highest ranked athlete after the qualification will choose the order of play. For a second roll off delivery the order of deliveries will be opposite to the first one etc.
 - There will be no handicap included in one ball roll offs.
- 22.8 If a format in a tournament requires tie breaking procedures for situations not covered by these rules, it is the obligation of the organizer to specify the necessary additional tie rules in the tournament rules.

23 Deciding the final tournament standing

- 23.1 By the conclusion of a tournament, a final tournament standing must be provided, in which all ties are broken and all positions are unique in a relation 1:1 between athletes and positions.

 - The runner-up of the tournament

-
- c. Athletes leaving after the second last final stage, athletes leaving after the third final stage before that etc.
 - d. Athletes not qualified for the final (except athletes qualified from a desperado squad) in the order of the qualification standing
- 23.3 In final stages, where a pin fall is deciding the positions, athletes leaving the final stage are positioned according to their score in the stage.
- 23.4 In a final stage with head to head matches, athletes leaving the final stage are positioned according to their positions in the previous stage not including head to head matches.
- 23.5 If positions in one or more stages of a tournament cannot be decided by using the general position definitions presented in these rules, then it is the obligation of the organizer to specify the position rules for these specific stages.

24 Penalty points

- 24.1 Penalty points are points given to athletes with inappropriate actions before or during a tournament, as specified in these rules.
- 24.2 After the conclusion of each tournament, the organizer will submit a list to the EBT Management, including athletes with penalty points in the tournament.
